Description

The Select Access Wall Guard is a security device designed to store up to 5 keys using a programmable combination mechanism. Its robust construction allows its installation outdoors, guaranteeing protection of the keys against climate and unauthorized access.

Technical characteristics

- Type: Save keys with combination
- Capacity: Up to 5 keys
- Mechanism: Programmable combination in 4 figures
- Implementation: External use
- Measurements: 7.5 x 5 x 12.4 cm
- Presentation: Blister with mounting kit included

The ease of programming of the combination and its compact design facilitate its use in various environments where simple and secure access control for keys is required.
