Description

The Select Access Wall Guard is a security device designed to store keys using a keyboard-controlled access system. Its main function is to restrict physical access to keys, allowing only authorized users to remove them by entering the correct combination.

Technical characteristics

- Form type: Mural
- Model: Select Access
- Measurements: 8 x 5.5 x 12 cm
- Opening system: Programmable with 12-digit alphanumeric combination
- Includes: Mounting kit for wall installation

The ability to program alphanumeric combinations allows flexible access management, adapting to different security needs without relying on physical keys or magnetic cards. Its compact design and the inclusion of the assembly kit facilitate its integration into small spaces.
