Description

The 16 mm initial drop-off link is an accessory made of polyethylene designed to connect pipes with different diameters within hydraulic systems. This component, available in a 100-piece bag, is part of the infrastructure for drip irrigation, microspersion and nebulization.

Technical characteristics

- Diameter: Ø 16 mm
- Materials: Polyethylene
- Unit weight: 0.246 kg
- Content: 100 pieces

Its main function is to facilitate the union in systems of plumbing and agricultural irrigation, allowing the efficient integration of components with variations of size.

Specifications

High	6 cm
Width	21 cm
Diameter	1,6 cm
EAN	8435450484971
Manufacturer	WOLFPACK LINEA PROFESIONAL
