Description

This screwdriver holder with an adjustable depth stop is a tool designed for interior work, facilitating the screwing of drywall plates through an adjustable system that controls insertion depth.

Technical Specifications

- Type: Screwdriver holder
- Hexagonal shank: 1/4 inch
- Features: With adjustable depth stop
- Includes: Integrated magnet and PH2 tip

The integrated magnet allows holding the screw at the tip to simplify handling during operation. The plastic cap provides a perfect view of the work area, improving precision when placing screws.
