Description

This set of two 25 mm Torx TX10 bits is designed for screwing tasks requiring precision and safety. Its construction meets international standards, ensuring a correct fit on corresponding screws without damaging the slots.

Technical Specifications

- Bit length: 25 mm
- Standard: Compatible with DIN ISO 1173-D
- Drive: Hexagonal ¼ inch (6.3 mm)
- Contents: 2 pcs
- Bit type: Torx
- Type: TX10

The hexagonal geometry of the shank allows for firm insertion into standard bit holders, facilitating torque transmission without slipping during use.
