Description

This set of two Torx TX15 type bits with a length of 25 mm is designed for general applications requiring precise and secure actuation. Its compact format allows ergonomic handling in various maintenance or assembly tasks where this specific size is needed.

Technical Specifications

- Bit Type: Torx TX15
- Bit Length: 25 mm
- Shank: Hexagonal ¼ inch (6.3 mm)
- Standard: Compatible with DIN ISO 1173-D
- Set Content: 2 units

Compatibility with the DIN ISO 1173-D standard ensures that these bits fit correctly into standard ¼ inch bit holders, preventing slippage and protecting both the tool and the screw during use.
