Description

This set of two 25 mm Torx TX20 bits is designed for universal applications, offering a versatile solution for screwing tasks requiring precision and compatibility with industrial standards.

Technical Specifications

- Bit length: 25 mm
- Standard: Compatible with DIN ISO 1173-D
- Shank: Hexagonal 1/4 inch (6.3 mm)
- Contents: 2 pcs
- Bit type: Torx
- Type: TX20

The hexagonal shank construction allows for safe insertion into standard bit holders, ensuring a firm fit that prevents slipping during use. Its robust design facilitates handling in various environments where precise control over applied torque is required.
