Product sheet

35mm Torx TX50 Bit with Hexagonal Drive

Brand: EDM

Reference: EDM 21772

35mm Torx TX50 bit with DIN ISO 1173-D standard and 6.3mm hexagonal drive. Designed for universal applications in hand tools, offering high resistance and durability in general mechanical work. Manufactured with hard materials to guarantee optimal performance in industrial and professional maintenance environments without compromising fit precision.

Description

The 35mm Torx TX50 bit is a fastening accessory designed for universal tools requiring high precision and torque. Its hexagonal construction on the shank ensures a secure connection with corresponding handpieces, facilitating force transmission without slipping during mechanical work.

Technical Specifications

- Standard: Compatible with DIN ISO 1173-D
- Drive: Hexagonal 1/4 inch (6.3 mm)
- Bit Type: Torx
- Type: TX50
- Bit Length: 35 mm

Given its length and specific geometry, this element is suitable for applications where it is necessary to reach tight spaces or exert controlled torque on joints requiring the Torx safety system.
