Description

The Magnetic socket bit M6 x 50 mm is a precision tool designed for tightening metric nuts and external hex screws. Its magnetic construction allows for safe and efficient gripping of the work elements, facilitating maintenance and assembly operations in various mechanical contexts.

Technical Specifications

- Type: Socket bit
- Dimensions: M6 x 50 mm
- Main features: Magnetic
- Drive: 1/4 inch Hexagonal
- Application: External hex screws and nuts
- Compatibility: Chucks according to DIN ISO 1173-F 6.3 standard

The combination of its magnetic design and compatibility with international standards ensures reliable performance in applications requiring precision when tightening small metal components.
