Description

The white-coloured Easylink L-clock connector is an essential component for lighting systems that allows 90° turns within the power grid. Its compact design and compatibility ensure smooth integration with the rest of the system accessories.

Technical characteristics

- Colour: White
- Pressure: 220 - 240 V ~ 50/60 Hz
- Model: Easylink
- Maximum power: 1800 W
- Form: In L
- Orientation: Time sense
- Functionality: Make 90° turns in the lighting system
- Compatibility: With the rest of Easylink components
- Dimensions: 107 x 17 x 107 mm

Thanks to its 90 degree turning capacity, this connector facilitates the adaptation of routes in lighting lanes without the need for additional complex accessories, maintaining the uniform aesthetics of the system.
