Description

The Fitting Enclosure 90° 90 is an essential component of plumbing and air conditioning designed to make precise directional changes in pipes, allowing fluid connections with an exact curvature of 90 degrees.

Technical characteristics

- Mark: FITTING
- Angulation: 90°
- Type: Clamped link

Given its angular design, this accessory facilitates the installation of water or fluid distribution networks in spaces with geometric restrictions, ensuring continuous flow without unnecessary obstructions within the hydraulic system.
