Product sheet

FITTING branch tee right turn 90-3

Brand: FITTING

Reference: SCO 18127

The FITTING TE DERIVATION R/H 90-3 is a plumbing component for bypassing pipe systems with right turn. Its geometry connects a lateral branch to the main duct, facilitating the distribution of fluid in hydraulic installations that require a controlled and precise deviation angle according to model 90-3.

Description

The FITTING TE DERIVATION R/H 90-3 is a plumbing component designed to make bypasses in pipe systems with a right-hand turn configuration. Its specific geometry allows connecting a lateral branch to a main conduit, facilitating the distribution of fluid in hydraulic installations where a controlled deviation angle is required.

Technical characteristics

- Mark: FITTING
- Type: Derivation TE
- Turn: Right (R/H)
- Model code: 90-3

This accessory is used to divert the flow to a secondary line while maintaining the continuity of the main system.
