**ILARGI lock model 124 cylinder
profile 80 mm configuration I
HE**

Brand: ILARGI

Reference: SCO 20063

The ILARGI lock model 124 is a safety cylinder with 80 mm profile and I HE configuration, designed for locksmithing systems that require high mechanical strength and standardized compatibility in industrial installations according to manufacturer specifications.

[View product online](#)**Description**

The ILARGI lock model 124 is a safety cylinder designed for locksmithing systems with a specific 80 mm profile measurement and I HE configuration. This component offers a robust and standardized solution, ensuring the necessary compatibility for applications requiring high mechanical strength and adherence to the safety profiles defined by the manufacturer in its industrial installations.

Technical characteristics

- Model 124 lock
- Cylinder profile 80 mm
- Configuration I HE

Given its cylinder and profile specification, this product is oriented towards integration into locksmith systems where such standard measurement is required.
