Description

The FAC mechanical recessable safe model 101-M is a safety device designed for installation on walls, intended for the safe storage of documents, money or valuables by means of a mechanical opening system only.

Technical characteristics

- Type: Embedded safe
- Mechanism: Mechanical opening
- Model: 101-M
- Code: =05445

Given its recessable box nature, it requires installation in masonry or wall structure for optimal operation.
