Description

The UCEM 4056-A lock is a safety device designed for installation on existing doors, allowing controlled closing and opening without needing to modify the original door. Its specific configuration indicates a hand crank operation.

Technical characteristics

- Model: 4056-A
- Type: Lock overlay
- Door width: 70 mm (75 mm compatible)
- Operation: HB (Malevela)
- Installation side: Left (IZQ)

Given its manual configuration and dimensions, this model adapts to standard wide doors that require an additional locking mechanism installed above the main lock.
