Product sheet

BAHCO Universal Joint 72 mm model SBS85 reference 773-1/2

Brand: BAHCO

Reference: SCO 31057

The BAHCO universal joint model SBS85 with reference 773-1/2 is a mechanical joint designed to transmit power on misaligned axes. This manual tool component has a diameter of 72 mm and is manufactured under industrial standards to ensure durability in torque transmission applications where angular flexibility between two rotary axes is required without significant loss of operational efficiency.

Description

The BAHCO universal joint or joint model SBS85 with measurement of 72 mm is a manual tool piece designed to transmit rotating motion between axes that are not aligned in the same line.

Technical characteristics

- Mark: BAHCO
- Measure: 72 mm
- Model: SBS85
- Reference code: 773-1/2

Given its construction as a universal joint, this piece allows compensating angular misalignments between connected axes, facilitating efficient torque transmission in mechanical applications where the input and output shaft are not colinear.
