Description

The SOLTER SOLDER INVERTER CORE 200DI REF. 10207 is a welding equipment designed for applications in workshops and industrial environments that require a stable and efficient arc process.

Technical characteristics

- Technology: Inverter
- Model: CORE 200DI
- Reference: 10207
- Mark: SOLTER

Given its inverter design and specific reference, the equipment is configured to operate with the parameters defined by the manufacturer in this particular model.

Specifications

EAN	8427338102077
Manufacturer	SOLTER
