Product sheet

6x90mm square insert for door handle model 690

Brand: ALBERTO MUÑOZ

Reference: ALM 3001.0041

The 6x90mm crank square 690 is a precision tool designed for adjustment and alignment of axles in industrial machinery. Made with exact dimensions of 6 mm side and 90 mm length, this component ensures the correct installation of cutting tools and accessories in systems that require a square of high mechanical strength and dimensional stability under continuous operating load.

Description

The 6x90mm quadradillo is a transmission accessory specifically designed to be attached to the 690 model crank, allowing the necessary mechanical connection for the operation of the equipment.

Technical characteristics

- Dimensions: 6x90mm
- Type: Quadradillo
- Compatibility: Handle 690

Its use is determined by its direct compatibility with the 690 crank, facilitating the transmission of motion in applications requiring this type of coupling.

Specifications

High	0,6
Width	9
EAN	8431488006901
Measures	6x90mm
