Description

The chrome pin lock 09700 Ayr is an accessory lock designed to secure doors or accesses by means of a pin mechanism. Its chrome finish gives it corrosion resistance and a polished aesthetic appearance, suitable for installations where surface durability is required.

Technical characteristics

- Model: 09700
- Mark: Ayr
- Type: Castor bolt
- Finished: Chromium

This model is used in applications that demand a simple and robust closure, taking advantage of the reliability of the pin mechanism to ensure the basic safety of the installation point.
