Description

Zincated M-12 threaded rod with resistance grade 4,8 according to DIN 975 standard.

Technical characteristics

- Diameter: M-12
- Level of resistance: 4.8
- Standard: DIN 975
- Finished: Zincated

Metal fixation element designed for applications requiring adherence to DIN 975 and surface protection by zincation.

Specifications

EAN	8019920297201
