**DOOR CLOSERS ROD SPRING
WHITE 57201 BRIMIC**

Brand: BRIMIC

Reference: ALM 3367.0025

Brimic's Model 57201 spring door closer is a mechanical device designed for automatic door closing. This system uses an internal spring to ensure the hermetic sealing of the strand when closing the blade, ensuring its correct operation and prolonging the life of the frame by reducing direct impacts on the structure during each opening and closing cycle.

[View product online](#)**Description**

The BRIMIC Model 57201 spring door closure is a security and access control device designed for doors. Its operation is based on a spring system that allows free passage and automatically closes the sheet when releasing it.

Technical characteristics

- Mark: BRIMIC
- Model: 57201
- Type: Rod spring
- Colour: White

This accessory offers a direct mechanical solution for closing doors, ensuring that the blade returns to its original position after being opened.
