Step Drill Bit HSS 4-32mm 8 22612 STHOR

Brand: STHOR

Reference: ALM 3380.0353

The HSS scaled drill bit model 8 22612 of the brand STHOR is a cutting tool designed for drilling in metals. Made of fast steel, it has a step design that allows multiple hole diameters between 4 and 32 mm with a single tool, optimizing performance and reducing the times of changing accessories during industrial or workshop tasks.
