Simon 360 Matte Black Cover for Bipolar Socket Base

Brand: SIMON

Reference: SIMON 36000040-098

Cap for bipolar socket base in matt black finish of the Simon 360 series, designed for Simon 75 mechanisms. Made of thermostable steel, it offers high strength and durability with IP20 protection. Its anti-reflective surface reduces maintenance by minimizing footprints and brightness, integrating perfectly into horizontal or vertical installations on both surface and recessed.

Description

The matte black bipolar socket base lid Simon 360 is an accessory designed to cover electrical mechanisms, offering a perfect aesthetic integration with the corresponding series. Its finish reduces reflexes and facilitates maintenance by minimizing footprint build-up.

Technical characteristics

- Series: Simon 360
- Protection: IP20
- Material: Steel, Thermostable
- Format: Bipolar
- Dimensions: 70 x 70 x 23 mm
- Type of installation: Suitable for surface and recess
- Orientation: Horizontal, Vertical
- Units per pack: 10
- Guarantee: 3 years
- Compatibility: Mechanisms Simon 75
- Working temperature: 5 - 40 oC
- Finished: Black mate

The use of the thermostable material guarantees high strength and durability, ensuring a long service

life under normal operating conditions between 5 and 40 degrees Celsius.

Versatile installation that allows both surface and recessed mounting, compatible with Simon 75 mechanisms for precise and safe fit.

Specifications

Colour	Matt black
EAN	8421053439319
Material	Steel
Protection	IP20
Piece type	Covers and keys
Series	Simon 360
