Simon Aqua 10AX Pilot Switch IP55 Grey

Brand: SIMON

Reference: SIMON 4400202-030

Aqua Series IP55 pilot SIMON AQUA 10AX switch, designed for surface cast mounting with complete housing. It has IP55 degree of protection against dust and water, nominal voltage of 250 V and assigned current of 10 A. Includes built-in pilot and plug clamp connection system.

Description

The SIMON AQUA 10AX IP55 Pilot Switch is a high-end switch designed for electrical installations that require reliability and environmental protection. Its robust construction makes it suitable for environments where exposure to dust and water is an important consideration.

Technical characteristics

- Series: AQUA
- Range: SIMON AQUA - ESTANCA
- Power capacity: 10 A
- Nominal voltage: 250 V
- Degree of protection: IP55
- Level of impact resistance: IK07
- Wiring system: Two-way switch
- Method of operation: Balncín/button
- Number of oscillators: 1
- Type of surface: Brilliant.
- Colour: Grey (RAL 7035)
- With built-in pilot: Yes
- Mounting systems: Base element with complete housing
- Installation method: Surface mounted (slaying)
- Connection type: Plug Clamp

- Device depth: 57.5 mm

The combination of its IP55 degree of protection and IK07 impact resistance ensures safe operation under various environmental conditions, while the integrated pilot facilitates visual identification of the circuit state.

Specifications

Colour	Grey
EAN	8421053298466
Protection	IP55
Nominal voltage (V)	250V
Piece type	Electrical mechanisms
Series	Simon 44 AQUA
