Description

The double SIMON Switch AQUA 10AX bright IP55 is a two-way switch of the Aqua series, designed for independent control of two circuits by swinging system or button. Its complete grey housing (RAL 7035) and surface cast design guarantee an aesthetic and functional integration into electrical installations.

Technical characteristics

- Series: AQUA - ESTANCA
- Number of oscillators: 2
- Capacity: 10 A to 250 V
- Protection: IP55 (dust and water jets)
- Impact resistance: IK07
- Assembly: Superficial in cast
- Connection: Plug Clamp
- Luminous pilot included

The IP55 classification and IK07 resistance make it suitable for areas with humidity or exposure to moderate impacts, making it easier to locate thanks to the pilot. Its installation is simple by means of a base element with a complete housing.

Specifications

Colour	Grey
EAN	8421053298534
Protection	IP55
Nominal voltage (V)	250V
Piece type	Electrical mechanisms
Series	Simon 44 AQUA
