Product sheet

Black polyethylene bin 40L conical shape

Brand: JAR

Reference: EDM 79914

Capped made of black polyethylene with nominal capacity of 40 liters. Its design features a conical shape that optimizes stability and facilitates efficient stacking in reduced spaces. The structure of the material ensures flexible behaviour without compromising mechanical resistance during the transport of heavy or bulky loads in industrial environments.

Description

This black polyethylene container with a capacity of 40 liters is a flexible and resistant container designed for the storage and transport of materials. Its polyethylene construction ensures durability while maintaining a manageable light weight.

Technical characteristics

- Type: Capazo
- Capacity: 40 l
- Colour: Black
- Material: Polyethylene
- Form: Conical
- Properties: Flexible and resilient

The conical shape of this container facilitates its efficient stacking, optimizing the space in warehouses or transport vehicles. Its flexibility allows to adapt to different loads without losing structural integrity.

Specifications

Colour	Black
EAN	8423343012394

Material	Polietileno
Weight (kg)	0,04
Capacity (ml)	40000
