Microprismatic Opal Diffuser in Roll 12.5mm - 30 Meters

Brand: LEDME

Reference: LEDME LM3896

The M LEDME microprismatic roll opal diffuser measures 12.5 mm wide and 30 meters long. Made of resistant PC material, it integrates microprism technology for a uniform distribution of luminous flux. Its compact design avoids points of shade and excessive glare, ensuring constant optical performance in commercial and industrial linear lighting systems with precise light beam control.

Description

The M LEDME microprismatic roll opal diffuser is an optical component designed for uniform distribution of light, made of PC material and available in a width of 12.5 mm with a total length of 30 metres.

Technical characteristics

- Mark: M LEDME
- Material: PC
- Width: 12.5 mm
- Length: 30 meters
- Type: Microprismatic opal diffuser
- Format: In rolls

The microprismatic technology integrated into its structure allows a controlled dispersion of the luminous flux, optimizing the efficiency of the lighting systems where this transparent material is applied.

Specifications

Driver included	No
-----------------	----

EAN	8435579738962
Manufacturer	Ledme
Material	PC
