RGB+CCT Controller 12/24V DC with 30m RF Remote

Brand: LEDME

Reference: LEDME LM2085

The M LEDME RGB+CCT controller operates with 12 to 24V DC power supply and supports up to 288W to 24V. Includes RF control with range of 30 meters to adjust color and temperature. Made of polycarbonate, it works between -10°C and +40°C under IP20 protection. Its compact dimensions of 75x36x17 mm facilitate installation in professional lighting systems without the need for complex programming.

Description

The M LEDME RGB+CCT Regulator Controller is a device designed to manage and regulate LED lighting, allowing simultaneous control of RGB colour channels and CCT color temperature by continuous power supply.

Technical characteristics

- Mark: M LEDME
- Maximum power: 144W to 12V DC or 288W to 24V DC
- Power supply: 12-24V DC
- Working temperature: -10°C to +40°C
- Protection against elements: IP20
- Dimensions: 75x36x17H mm
- Housing material: PC (Polycarbonate)
- Includes RF remote control with range of 30 meters
- Guarantee: 3 years

Thanks to its voltage-enhanced power range and robust material, this regulator offers a versatile solution for lighting systems that require precision in color and brightness adjustment without the need for complex programming.

Specifications

EAN	8435579720851
Manufacturer	Ledme
Remote control	Yes
Power (W)	144W a 12V DC o 288W a 24V DC
Protection	IP20
Nominal voltage (V)	12-24V DC
