Description

The M LEDME Prostrip Adapter Cable is an essential component for connecting LED strips to a 220Vac power supply, ensuring safe and stable operation of the lighting system.

Technical characteristics

- Mark: M LEDME
- Input voltage: 220Vac
- Guarantee: 3 years

This adapter allows you to integrate LED strips into standard electrical installations without the need for additional transformers, facilitating installation and reducing the complexity of assembly.

Specifications

EAN	8435579726150
Manufacturer	Ledme
Rated voltage	220V
Nominal voltage (V)	220V
