Description

The Led 220Vac Bergamo Adapter Cable of the LEDME brand is a component designed for the connection and adaptation of LED lighting strips to a 220V AC power supply. This accessory allows to integrate LED lighting systems into standard electrical installations, facilitating energy management for this type of devices.

Technical characteristics

- Mark: LEDME
- Dimension: 250X6 mm
- Guarantee: 3 years

This adapter offers a compact and specific solution for connecting LED strips, ensuring compatibility with the voltage indicated. Its design of reduced dimensions allows a discreet installation in spaces where space is limited, maintaining the electrical functionality necessary for the proper functioning of the lighting.

Specifications

Manufacturer	Ledme
Measures	250x6 mm
Nominal voltage (V)	220V

Type of cable	Power cord
