Description

This accessory pack is designed to complete the installation of profiles of model LM3763. It includes the locking and fastening elements necessary to ensure the structure efficiently and in an orderly manner.

Technical characteristics

- Content: 20 units of plugs and 2 staples.
- Mark: LEDME.
- Material: PC (Polycarbonate).
- Guarantee: 3 years.

The composition of the pack allows to finish the ends of the profile and fix the structure with the staples included. The use of PC material provides a solid basis for these locking components.
