RGB LED Controller 220V IP65

Brand: LEDME

Reference: LEDME LM2037

RGB LED controller for outdoor installation, compatible with AC power from 170 to 265 V. Built of PC material with IP65 protection, ensuring resistance to dust and water. Dimensions 90 x 60 mm, designed for professional use in decorative and architectural lighting.

Description

LED rgb controller for outdoor or indoor installations with IP65 protection, designed to operate with power voltages between 170 and 265 V AC. Ideal for LED rgb lighting systems in demanding environments, thanks to its construction in resistant PC material and its high protection against dust and water.

Technical characteristics

- Protection: IP65
- Power supply: 170-265 V AC
- Dimension: 90 x 60 mm
- Material: PC
- Guarantee: 3 years

It adapts to LED rgb lighting systems in protected outdoor or indoor environments, offering operating stability with a wide range of input voltages. Its compact design allows easy integration into standard electrical installations.

Specifications

Manufacturer	Ledme
Material	Polycarbonato
Measures	90x60 mm

Protection	IP65
Nominal voltage (V)	170-265V
