

## Product sheet

## Inline connector with separator for black aluminum three-phase busbar

Brand: LEDME

Reference: LEDME LM3216

The M LEDME inline connector with separator for three-phase busbar is made of aluminum and comes with a three-year warranty. This black electrical component is used to join conductors in three-phase systems, ensuring a safe and stable connection through its specific design for busbars.

### Description

The M LEDME Inline Connector with Separator for Three-Phase Busbar is an electrical component designed to join conductors in three-phase systems, ensuring a safe and stable connection through its specific design for busbars.

#### Technical Features

- Brand: M LEDME
- Material: Aluminum
- Warranty: 3 years

Its aluminum construction provides durability and adequate mechanical resistance for its function as an inline connection within three-phase systems.

### Specifications

|              |               |
|--------------|---------------|
| Colour       | Black         |
| EAN          | 8435579732168 |
| Manufacturer | Ledme         |
| Material     | Aluminio      |
