Description

The M LEDME White Three-phase Rail Type L Connector is an electrical component designed for three-phase installations, made of aluminum and PC materials.

Technical characteristics

- Mark: M LEDME
- Material: Aluminium
- Guarantee: 3 years

Its construction in aluminium and polycarbonate gives it the necessary robustness for use in standard three-phase systems, ensuring safe operation within the parameters specified by the manufacturer.

Specifications

Colour	White
Manufacturer	Ledme
Material	Aluminio
