White T-Type Connector for Three-Phase Rail M LEDME

Brand: LEDME

Reference: LEDME LM3214

The M LEDME T-Type connector for three-phase rail is made of aluminum and offers a three-year warranty. This component enables safe connection in three-phase systems through its specific design for DIN rail, ensuring robust and durable mounting in industrial installations requiring reliability in electrical power distribution without additional elements.

Description

The M LEDME T-Type Connector for Three-Phase Rail is an electrical component designed for three-phase systems, manufactured from aluminum material and offering a 3-year warranty.

Technical Specifications

- Brand: M LEDME
- Material: Aluminum
- Warranty: 3 years

Its aluminum construction provides durability and adequate structural resistance for its application in three-phase electrical installations.

Specifications

Colour	White
Manufacturer	Ledme
Material	Aluminio

may contain errors or omissions and does not replace the manufacturer datasheet.
