IP68 PC Connector for LED

Brand: LEDME

Reference: LEDME LM2193

LEDME brand EN connector, made of PC material and designed to offer IP68 grade dust and water protection. This technical component includes a three-year warranty, ensuring its durability and performance in demanding environments where watertightness is a fundamental requirement for the continuous operation of the equipment.

Description

Connector In LEDME brand, designed to provide a secure and reliable connection in demanding environments. This component stands out for its robustness and protection against external agents, ensuring stable performance over time.

Technical characteristics

- Mark: LEDME
- Level of protection: IP68
- Construction materials: PC
- Manufacturer's warranty: 3 years

The IP68 certification ensures total protection against dust entry and superior resistance to water immersion, allowing its use in extreme or submerged humidity conditions. The PC material provides the necessary rigidity to maintain the structural integrity of the connector in the face of environmental impacts or variations. The three-year warranty supports the durability and correct operation of the product during its life cycle.

Specifications

Manufacturer	Ledme
Material	PC
Protection	IP68
