Galvanized Female Hex Plug 1/2

Brand: GIBALTO

Reference: GIB 000092

The galvanized female hexagonal plug of figure 300 is a plumbing accessory designed to close installations or put them on hold. Made of steel with high corrosion resistance and abrasion, it allows to drive water, steam, gas and compressed air up to 25 bar and 120 °C.

Description

The galvanized female hexagonal plug is an essential plumbing accessory designed to close installations or put them on hold, allowing flow control in systems that carry water, steam, gas and compressed air.

Technical characteristics

- Drives fluids at pressures of up to 25 bar
- Safe operation at temperatures up to 120 °C
- High corrosion and abrasion resistance
- Low thermal conductivity

Its ability to withstand high pressures and temperatures, together with its wear resistance, makes it suitable for maintaining the integrity of the lines during periods of inactivity or maintenance in various industrial and service environments.

Specifications

EAN	8432453000924
Manufacturer	GIBALTO
Material	Acero galvanizado

may contain errors or omissions and does not replace the manufacturer datasheet.
