## Description

The three-take multiple base KRANG is an electrical accessory designed to simultaneously connect multiple devices to the power supply network, facilitating the management of plugs in spaces with available socket limitations.

Technical characteristics

- Cable length: 1.5m
- Cable measurement: 3x1mm
- Type of thorn: Schuko
- Diameter of the ear: Ø4.8mm
- Electric capacity: 16A - 250V
- Ownership of the material: Thermostable
- Presentation: Stock exchange

Given its rated capacity of 16 amperes and its thermostable construction, this device is designed to withstand high electrical loads in standard domestic or industrial environments operating at 250 volts, allowing the safe distribution of energy to multiple devices.
