KRANG IP55 Waterproof Double Switch 10A Light Grey

Brand: KRANG

Reference: GIB 003296

The KRANG double watertight switch allows control of two electrical circuits with IP55 protection grade for indoor and outdoor use. Made of insulating material with high impact resistance, operates at 10A and 250V. Includes flexible rubber push-button with protective membrane and surface fastening.

Description

The KRANG double-tight switch is an electrical device designed for circuit control in environments that require protection against dust and splashes of water, suitable for both indoor and outdoor installations.

Technical characteristics

- Degree of sealing: IP55
- Intensity: 10A
- Voltage: 250V
- Frequency: 50Hz
- Material: Insulating with high impact resistance
- Fixing mode: surface
- Protective membrane on flexible rubber push-button
- Colour: light grey housing and white push-button
- Measurements: 65 x 80 x 60 mm

Its degree of protection IP55 and the rubber membrane in the push-buttons guarantee a safe operation against external elements, allowing its use in exposed areas without compromising the integrity of the internal mechanism.

Specifications

Frequency	50
Rated current (A)	10
Colour	Gris claro
EAN	8435240705385
Manufacturer	KRANG
# Elements	2
Protection	IP55
Nominal voltage (V)	250 V
Type of installation	Surface
Usage	Indoor and outdoor
