WADFLOW WSR1401 Digital Angle Rule with Metric/Imperial Conversion

Brand: WADFLOW

Reference: GIB 051486

The WADFLOW digital angular ruler model WSR1401 measures angles from 0 to 360 degrees and distances up to 400 millimeters with a reading resolution of 0.05 degrees. This measuring instrument allows conversion between metric and imperial systems in any position and operates with two 3-volt batteries included in its presentation.

Description

The WADFLOW Digital Angular Rule is a precision instrument designed to measure angles and distances with high accuracy in general measurement applications.

Technical characteristics

- Range: 0-360°, 0-200 mm, 0~400 mm (180°)
- Reading: 0.05°, 0.1 mm/0.01"
- Battery: 3V
- Conversion of metric system/inch into any position
- Includes two pieces of battery

Its ability to instantly convert between measurement systems and its wide reading range facilitates accurate component verification in various working environments without the need for complex manual adjustments.

Specifications

EAN	6941786804823
