Description

WADFOW's square 1/2" to hexagonal 1/4" adapter is a mechanical tool designed to connect elements with different profiles, facilitating assembly and adjustment in repair or assembly work.

Technical characteristics

- Square size: 1/2"
- Unit size: 1/4"
- Total length: 5cm
- Blister presentation

This piece allows the transition between a larger square axis diameter and a smaller hexagonal head, being useful for applying torque or connecting components where this geometry change is required in general mechanical applications.
