Hortilox 20mm PN16 Equal Coupling

Brand: HORTILOX

Reference: GIB 070000

The equal 20 mm PN16 sleeve of the HORTILOX brand is a fitting accessory for pipes that allows to give continuity, link, direction and drift lines. Made of PP material, this component is designed for irrigation systems with diameters available from 20 to 90 millimeters, offering a robust technical solution for connecting pipes under nominal pressure of 16 bar.

Description

The same 20 mm PN16 sleeve of the HORTILOX brand is a fitting accessory designed for irrigation systems, allowing continuity, linking, directing and derivation of pipes efficiently. Made of PP material, this component ensures a secure and durable connection within the pipe system.

Technical characteristics

- Measure: 20 mm
- Material: PP
- Available diameters from 20 mm to 90 mm

Given its continuity and link design, this cuff is essential to maintain the integrity of the flow in irrigation networks where it is necessary to join segments or slightly change the trajectory without significant losses.

Specifications

Diameter	20 mm
EAN	8432453700008
Manufacturer	HORTILOX
Material	PP
