Description

The Tapon 20mm PN16 of the HORTILOX brand is a fitting accessory designed for irrigation systems, whose main function is to provide continuity, link, direct and derive pipes within the installation.

Technical characteristics

- Measure: 20mm
- Material: PP (Polipropylene)
- Nominal pressure: PN16
- Series of available diameters: from Ø20mm to Ø90mm

Due to its material and design, this stopper allows airtight closures on irrigation lines without the need for additional welding at the connection point.

Specifications

Diameter	20mm
EAN	8432453700312
Manufacturer	HORTILOX
Material	Polypropylene
