Description

The self-compensating dropper of the HORTILOX brand guarantees a precise supply of water despite variations of pressure in long rows or irregular terrain. Its optimized design ensures a uniform distribution of the water resource.

Technical characteristics

- Material: PC (Polycarbonate)
- Drop rate: 4 litres per hour
- Design: Removable with removable lid for easy cleaning
- Connection: Compatible with Dn6 mm hose or direct insertion into PE Dn12-32 hose

Its construction significantly simplifies and reduces the costs associated with the installation and maintenance of the irrigation system, offering an efficient solution for various agricultural requirements.

The ease of installation allows you to quickly connect it via hose or integrate it directly into the existing network without the need for complex adapters.

Specifications

EAN	8432453702354
Manufacturer	HORTILOX

Material	PC
