Description

This variable flat angle is designed for joining two pieces of the same section, facilitating the installation of the DLPlus 32x16 molding. Its main function is to avoid the need to make inglet cuts in the channel, optimizing the assembly process.

Technical characteristics

- Material: Halogen-free plastic
- Colour: White (RAL 9003)
- Dimensions: 32 mm wide and 16 mm high
- Adjustable angle range: 85 to 95 degrees
- Type of fixation: Pressure (click)
- Working temperature: 15 to 60 °C
- Surface treatment: No treatment
- Model: Moulded cover

The possibility of adjusting the angle between 85 and 95 degrees allows the connection to be adapted to different alignment needs. Pressure fixing ensures fast and safe installation without additional tools. Halogen-free material provides a relevant technical feature for use in electrical or channeling installations.

Specifications

Colour	White
EAN	3245060333270
Halogen-free	Yes
Material	Plástico
Measures	32 mm x 16 mm
