Product sheet

Variable flat angle for DLPlus molding 20x12.5 mm White

Brand: LEGRAND

Reference: LEGRAND 030223

Variable flat angle for DLPlus 20x12.5 mm molding. It allows the joining of two pieces of the same section avoiding cuts of inglet. Made of halogen-free plastic, white color RAL 9003. Pressing click. Angle adjustable between 85 and 95 degrees. Working temperature range from 15 to 60 degrees Celsius.

Description

The variable flat angle for DLPlus 20x12.5 molding is a practical solution for joining two pieces of the same section into a plane. Its main design makes it possible to avoid cutting the inglet in the channel, facilitating the installation and ensuring a clean and accurate connection without the need for complex cutting tools.

Technical characteristics

- Height: 12.5 mm
- Width: 20 mm
- Model: Moulded cover
- Adjustable angle: 85...95 °
- Material: Plastic
- Halogen-free: Yes
- Colour: White (RAL 9003)
- Surface treatment: No treatment
- Type of fixation: Pressure fixing (click)
- Working temperature: 15...60 °C

This component offers a simple installation thanks to its pressure fixing system, allowing fast and safe assembly. The absence of halogens in their composition is an aspect relevant to the safety of the material. Its working temperature range makes it suitable for standard environments where thermal

conditions are kept within the specified limits.

Specifications

High	12,5 mm
Colour	White
EAN	3245060302238
Halogen-free	Yes
Material	Plástico
