Description

This final cover for FLUIDQUINT channel is an accessory designed for air conditioning installations. Its main function is to close the end of the channel, guaranteeing an aesthetic and functional termination in the air distribution system.

Technical characteristics

- Dimensions: 60 mm high and 70 mm wide.
- Material: Halogen-free plastic.
- Colour: White.
- Model: Compatible with left or right mounting.
- Type of fixation: Pressure system (click).
- Surface treatment: No additional treatment.
- It does not include protective film and is not antibacterial.

The pressure fixing design allows quick and easy installation without the need for complex tools. Being halogen-free, it meets basic safety standards for this type of components. The left/right model option offers versatility in channel configuration according to the orientation required in the installation.

Specifications

Width	70 mm
