Description

This 2-module Livinglight card beautifier in anthracite color is designed to be integrated with the corresponding card switch. Its matt finish and compact format allow an orderly and aesthetic installation in control panels, offering a clean and functional appearance.

Technical characteristics

- Material: Thermoplastic halogen-free plastic
- Colour: Anthracite (similar to RAL 7015)
- Area: Mate, no additional treatment
- Dimensions: 61.3 mm wide, 45.2 mm high and 16.5 mm deep
- Degree of protection: IP20
- Fixation: Locking in position
- Model: Hotel card with various symbols

The absence of halogens in its composition and the specific design for hotel cards make it a suitable choice for environments where a discreet and safe finish is required. Its 2-module format facilitates the management of reduced spaces in electrical installations.
