Description

The LW-PLACA 3M WHITE plate is a functional accessory designed to aesthetically complete the installation mechanism. It is a 3 modules plate with matt white finish, made of halogen-free thermoplastic, which is mounted horizontally on the functional surface of the equipment.

Technical characteristics

- Material: Halogen-free thermoplastic
- Colour: White (RAL 9003)
- Area: Mate, no treatment
- Dimensions: 127 mm wide, 90 mm high and 7.5 mm deep
- Modular system: 3 horizontal modules, 1 vertical
- Installation: A ras, locking in position
- Impact resistance: IK04
- Mounting position: Horizontal

This component allows coherent visual integration into electrical or control installations, offering a smooth and uniform surface. Its compact design and IK04 impact resistance ensure durability in environments where basic mechanical protection is required. The absence of halogens in their composition contributes to environmental safety during their life cycle.

Specifications

High	90 mm
Width	127 mm
Colour	Matt white
EAN	8005543752890
Manufacturer	LEGRAND
Halogen-free	Yes
Material	Termoplástico
Depth	7.5 mm
Protection	IK04
