Description

The LW-PLACA 3M WHITE MICA is an assembly accessory designed to aesthetically complete the functional part of electrical mechanisms. It is a modular three-module plate with matt finish in white, designed to offer a coherent visual integration in low voltage installations.

Technical characteristics

- Material: Thermoplastic halogen-free plastic.
- Colour: White (similar to RAL 7035) with matt surface.
- Dimensions: 127 mm wide, 90 mm high and 7.5 mm deep.
- Configuration: 3 horizontal modules, 1 vertical unit.
- Installation: A flush, horizontal position, locking by locking in position.
- Impact resistance: IK04.
- Degree of protection: Others.

This component is characterized by its compact design and uniform finish, facilitating the installation of flat surfaces. The absence of an assembly grid and its modular format allow a clean integration into the standard channeling or underrun system, ensuring a professional appearance at the connection point.

Specifications

High	90 mm
------	-------

Width	127 mm
Colour	Matt white
EAN	8005543752852
Manufacturer	LEGRAND
Halogen-free	Yes
Material	Termoplástico
Depth	7,5 mm
